

## Reuse

- Paper makes up 1/3 of landfills and is the single largest component of landfill waste
- Paper decomposition produces methane, a greenhouse gas 25 times more potent than carbon dioxide
- Recycling one aluminum can saves enough energy to power a TV for 3 hours
- Due to the high rate of aluminum can recycling, aluminum cans account for less than 1% of the total US waste stream
- Six out of ten corrugated boxes are being recovered, one of the highest recovery rates of any recyclable product
- One ton of recycled paper saves 17 trees and can be recycled 5–8 times

## Recycle

Quincy Recycle will develop a sustainability program that is cost-effective, and will allow your company to reach its environmental goals.

- Prevents pollution caused by the manufacturing of products from virgin materials
- Decreases emissions of greenhouse gases that contribute to global climate change
- Helps to sustain the environment for future generations
- Saves energy – a ton of recycled paper requires 44% less energy to produce

What are your priorities? Is it zero-impact? Or the bottom line? In either case Quincy Recycle can help you meet your goals while minimizing costs.

## The Sustainability Solution

**Quincy Recycle:** the missing piece in your sustainability journey.

## Reduce

By partnering with Quincy Recycle, your business can efficiently reduce waste and still have environmental-friendly processes. This will result in your business operating more profitably and in a more sustainable fashion.

- You create waste, we find a recycling solution
- In the US, the amount of waste generated/ person/day increased by 60% in the last 50 years or about 243 million tons of waste generated in the US annually
- Reduce costs and develop sustainable solutions—preventing waste equals economic savings for business and helps the environment

**Partners in Sustainable Solutions**

*Reduce – Reuse – Recycle:  
Why Not?*

- Improve efficiencies in your recycling processes
- Sort materials for the best recycling value
- Reduce your waste cost and recycle more material
- Meet your sustainability objectives or green initiatives

Enough about us... let's see what a few co-defenders of **Mother Earth** are saying about Quincy Recycle.

### **“Quincy Recycle has been a wonderful partner in our sustainability journey.**

They have always been very responsive to finding solutions that make it easier for us, even if it adds steps to their process. When the recycling market was depressed, they continued to provide excellent service and value.”

—Lori D. – General Mills

**“Quincy Recycle allows us to meet our Kraft Sustainability Goals.** They provide solutions of diverting waste from landfills and generate revenue of recycled materials.”

—Tamara B. – Kraft Foods

Does your company have an effective recycling program?

**“We have found a win/win/win,** reduced cost for trash expense, increased revenue by selling cardboard and plastic, plus it is very **Green.**”

—Steve G. – Dot Foods

### **“Quincy Recycle has been a strategic partner**

in getting our recycling program started. They have helped us reduce our landfill footprint by 40% and this is growing. Our goal is zero waste by 2013. With excellent customer service and support provided by Quincy Recycle we will achieve our goal. Also the additional revenue being generated from recycling, while not paying to dispose of recyclable material is a program which pays for itself.”

—Martin C. – Snyder's-Lance

### **“The Quincy Recycle team has been instrumental**

in reducing our waste costs while generating revenue. Mike's creativity in putting together a program for picking up the material in a timely manner has been very beneficial to our organization as well.”

—Larry P. – ITW Angleboard
